

RELEASE 111-2/2022

Release date:
10 November 2022

Quarterly statistics of transport

The second quarter 2022

Transport of passengers in the second quarter of 2022 compared to the same quarter of the previous year increased in: rail transport by 61.5%; road transport by 89.7%; local road by 7.3%; passenger transport at airports by 129.6%.

The transport of goods in the second quarter of 2022, compared to the same quarter of the last year, increased in: rail transport by 97.3%; and total turnover of goods in ports by 40.9%. But it decreased in transport of goods at airports, by 21.8%.

Number of transhipped tonnes in the ports in the second quarter of 2022, compared to the same quarter of the previous year, increased by 38.9%, as well as handled tonnes by 58.4%.

Total number of injury accidents¹ on roads in the second quarter 2022 was 1 454, which is 2.7% less than in the same quarter of the previous year. Number of casualties² in the second quarter 2022 amounted 790 (out of which there were 776 injuries), which is 5.5% less than the same quarter of previous year.

Number of registered road motor vehicles and trailers is 71 771 in the second quarter 2022, which is a increase of 7.3% in comparison with the same quarter of previous year. Number of the first time registered road motor vehicles and trailers³ in the second quarter 2022 is 6 653 which is a increase of 46.6% compared with the same quarter of the previous year.

In the second quarter of 2022, there were transported 238 thousands tonnes of goods by road freight motor vehicles, with performed 29 507 thousand tonne-kilometers. Kilometres travelled by loaded vehicles were 1 437 thousands kilometres. Share of inland transport in the structure of transported goods is 91.6%, i.e. 218 thousands tonnes of goods, while international transport participates with 8.4%, i.e. 20 thousands tonnes of goods. In the structure of performed tonne-kilometers, inland transport participates with 71.0%, i.e. 20 964 thousands tonne-kilometers, and international transport with 29.0% or 8 543 thousands tonne-kilometers.

Table 1. Quarterly statistics of transport

Indicator	II quarter 2021	II quarter 2022
Number of passengers carried by rail, in thousands.	135	218
Number of passengers carried in road transport, in thousands.	758	1 438
The number of passengers at airports, in thousands.	221	507
The number of accidents in road traffic	1 494	1 454
Number of registered road motor vehicles and trailers	66 904	71 771

¹ Total number of injury accidents includes: accidents without persons killed and persons injured, accidents with persons killed, accidents with persons killed and persons injured, accidents with persons injured.

² Casualties are any person killed or injured as a result of an injury accident.

³ First time registered vehicles include: new and used imported vehicles, i.e. vehicles for the first time registered.

Table 2. Transport of passengers and goods by type of transport

METHODOLOGICAL NOTES

It may happen that the total sum does not match the number of individual data, and that the cumulative data is not always equal to the sum of individual quarterly results due to rounding of numbers.

Data source

The data of transport are the result of regular quarterly surveys.

Data source for rail transport are reporting units with carrying passengers and goods by rail as the main activity (Section H, field 49); road passenger traffic reporting units with carrying passengers in road traffic as the main activity (Section H, field 49); local road traffic reporting units with the carriage of passengers in local road (urban) transport as the main activity (Section H, field 49); traffic at airports reporting units that perform service activities in air transport (Section H, field 52); air traffic reporting units which operate in air transport (Section H, field 51); for report on arrivals and departures of ships, reporting units are the Port Authority and Administration for Maritime Safety and Port Management; reloading the reporting unit which is engaged cargo handling (ship embark and disembark) main activity (Section H, field 52).

The data source for postal and telecommunications transport is Agency for Electronic Communications and Postal Service.

The data source for the number of road traffic accidents is Montenegro Police Directorate, and number of registered road motor vehicles and trailers Ministry of Interiors of Montenegro.

The survey of transport of goods by road is a sample-based survey. Data are collected by interview method. The observation unit is freight road motor vehicle with payload capacity 3 500 kg and higher, as well as tugs. The data sources are natural and legal persons which are owners or operators of vehicles.

The sample frame for road freight transport survey is records of registered vehicles that are obtained from Ministry Interior of Montenegro.

Definitions

Transport is the movement of passengers and goods and from place of loading to place of unloading.

Passenger is every person with ticket or appropriate document with the aim to travel to desired place.

Passenger kilometre presents the transport of one person over the distance of 1 km.

Goods transported are goods transferred based on the contract on transport. The quantity of goods transported is expressed in gross weight, meaning that the quantity of goods covers also the quantity of packaging or packing material (containers).

Tonne-kilometres indicate transport of one-tone goods over the distance of 1 km.

Airport is certain land or water area (including all buildings, facilities, and equipment) intended for aircraft take-off and landing, as well as for movements of aircrafts on the land area, and open for commercial air transport.

Passengers in direct transit are passengers who, after a short stop, continue their journey by plane the same flight number.

The number of commercial operations including take-off and landing aircraft at the reporting airport realized in order to achieve commercial air services (regular and irregular).

Number of total operations includes all take-off and landing aircraft at the reporting airport (except state flights). Included are all commercial operations (regular, emergency operations and general aviation), as well as all the operations of non-commercial general aviation (business, sailing, private, training, testing, positioning, technical stops, etc.). Do not include state flights (military, customs and police)

Ports are places for loading/embarkation and unloading/disembarkation passengers and goods at the seashore built particularly for this purpose, while docks are similar places on riverbanks and lakefronts.

Transhipped tonnes of cargo related to the total amount of cargo that passes through enterprise for cargo handling, where the same load, regardless of the number of manipulations that it has executed, shown only once.

Fixed telecommunication is services providing to users the access to public fixed network at the fixed location, and the use of public accessible telephone service at the fixed location.

Mobile telecommunication is services providing to users the access to public mobile network, and the use of mobile telecommunication services.

Traffic accident is an event that occurred on the road or the start on the road, which was attended by at least one vehicle in motion and in which one or more persons injured or killed or died within 30 days of the result of the traffic accident or result damage to property.

Registered road motor vehicle and trailer are all vehicles registered in the Ministry of Interiors, except military vehicles.

For the first time registered vehicles include: new and imported vehicles, i.e. vehicles with the first-time registration in Montenegro.

Road transport is any movements of goods and/or passengers using a road vehicle on a given road network

Inland road transport is transport between two places (a place of loading and a place of unloading) located in the same country in which the vehicle is registered.

International road transport is transport between two places (a place of loading and a place of unloading) in two different countries. It may involve transit through one or more additional country or countries.

Cross-trade road transport implies international transport of goods performed by domestic operators with the place of loading and unloading being located in a foreign country.

Transport for hire or reward is the carriage for remuneration, of persons or goods, on behalf of third parties.

Transport for own account is transport which is not for hire or reward.

Freight road motor vehicle is any single road motor vehicle designed to carry goods (lorry), or any coupled combination of road vehicles designed to carry goods, (i.e. lorry with trailer(s), or road tractor with semitrailer and with or without trailer).

Road tractor is road motor vehicle designed, exclusively or primarily, to haul other road vehicles which are not power-driven.

The data are published in line with the Statistical Release Calendar.

When using the data, state:

"Data source: Statistical Office - MONSTAT"

More data, as well as detailed methodological notes can be found in the section: [Transport](#)
