METHODOLOGICAL NOTES

Since 2017 the methodology for calculating individual accommodation, in the process of data collection and processing, has included the following data sources: administrative databases (Local Tourism Organization, Secretariats of Local Self-Government) and statistical sources and records. The newly established administrative data sources are the result of new legislation, such as the register of residence registration (i.e. Database RB90) under the jurisdiction of the Ministry of the Interior (regulated by the Law on Foreigners). Non-registered tourists are not subject of this survey.

The aim of the survey on tourist arrivals and overnight stays in the individual / private accommodation is to provide basic information about the scope of traffic (arrivals and overnight stays) of domestic and foreign tourists.

The survey collects data on:

- Number of arrivals and overnight stays of domestic and foreign tourists in individual/private accommodation establishments, including accommodation in houses and rooms for rent as tourist apartments;
- Structure of arrivals and overnight stays of foreign tourists by country of residence in individual/private accommodation establishments.

The survey covers all official data of catering establishments in the territory of Montenegro which provide accommodation services in houses and rooms for rent, as well as tourist apartments.

Tourist is a person who spends at least one night in an accommodation facility or some other object for accommodation of tourist, in a place other than his/her place of permanent residence for the reasons of rest or recreation, health, studies, sports, religion, family, business, public missions or meetings. Tourists do not include migrants, border workers, diplomats, member of military forces in the regular duty, refugees, etc.

Domestic tourist is a person with permanent residence in Montenegro who temporarily resides in any place of Montenegro, and spends at least one night in accommodation facility.

Foreign tourist is a person with permanent residence outside Montenegro, who temporarily resides in any place in Montenegro, and spends at least one night in an accommodation facility.

When using the data, state:

"Data source: Statistical Office - MONSTAT"
