

RELEASE 111/2023

Release date:
15 August 2023

Preliminary data

Construction activity

The second quarter 2023

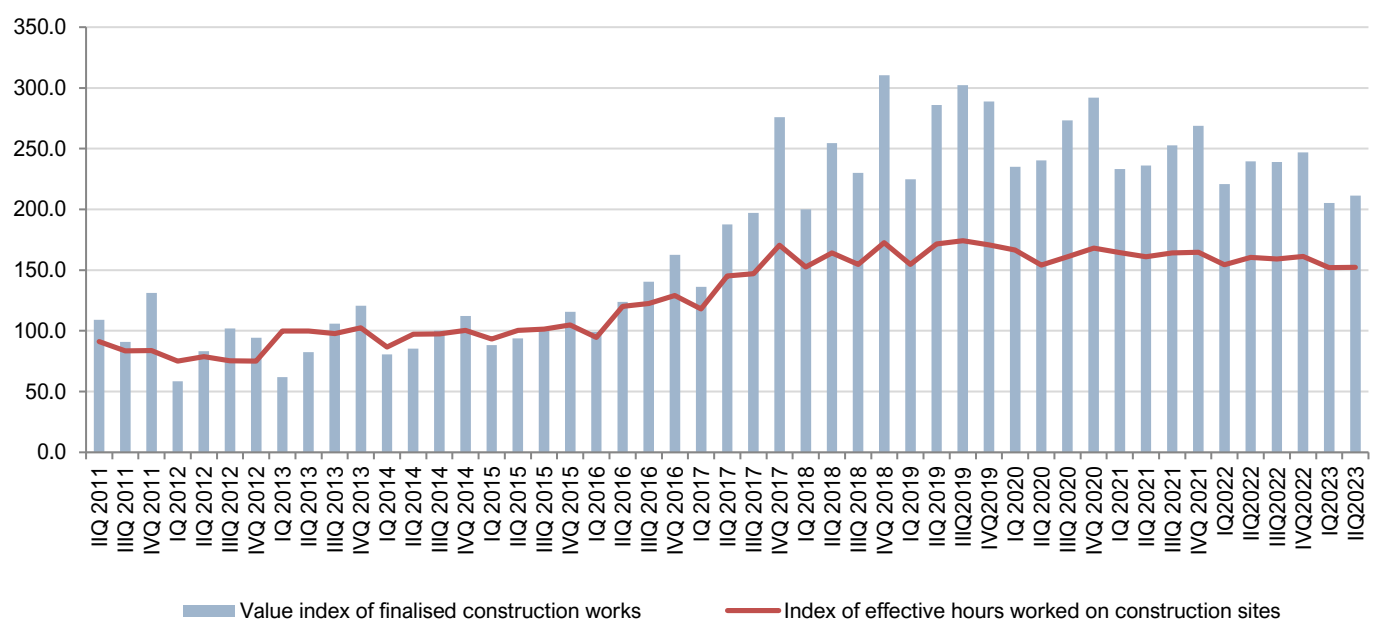

The value of finalized construction works in the second quarter of 2023 is lower by 11.8% compared with the second quarter of 2022, while it is 2.9% higher compared with the first quarter of 2023.

Effective hours worked on construction sites in the second quarter of 2023 are lower by 5.2% compared with the second quarter of 2022, while it is 0.1% higher compared with the first quarter of 2023.

Table 1. Indices of construction activities, II quarter 2023

Indicators	<u>IIQ 2023</u> Ø 2015	<u>IIQ 2023</u> IIQ 2022	<u>IIQ 2023</u> IQ 2023	<u>I-IIQ 2023</u> I-IIQ 2022
Value of finalized construction works	211.4	88.2	102.9	90.5
Effective hours worked on construction sites	152.2	94.8	100.1	96.6

Graph 1. Indices of construction work values and effective hours worked, 2015=100

METHODOLOGICAL NOTES

The presented data are collected through the survey on construction activity (GRADJ-31). The survey is realized on a sample basis. The frame for the sample is enterprises with 5 and more employees who are, in the Statistical Business register according to the Classification of activities, classified in sector F – Construction, as well as companies (KAU) whose business units engaged in construction works. The survey covers all large and medium enterprises (class 2 and 3), while small enterprises (class 1) are selected by a random simple sample.

The value of finalized construction works includes material costs, labour costs, demolition, and preparation of the field, installation costs, general costs, and profit. The value does not include expenses of buying the land, engineering, monitoring, and VAT. The data on the value of finalized construction work refer to works performed in the reporting period on finished and unfinished constructions. The value of finalized construction works is expressed in current prices.

Effective hours worked present the hours actually worked by workers engaged at the construction sites during regular working hours, as well as overtime work.

Data are published according to the [Statistical Release Calendar](#).

The last published data are considered preliminary, and become final within the defined deadline, as foreseen by the Statistical Release Calendar.

When using the data, state:

"Data source: Statistical Office - MONSTAT"

More data, as well as detailed methodological notes can be found in the section: [Construction activity](#)
