Montenegro Statistical Office

Preliminary data

## Indices of industrial production and turnover

## Third quarter 2022

Industrial production in Montenegro in III quarter 2022 compared with III quarter 2021 decreased by 6,8\%. At the sector level, compared to III quarter 2021, Mining and quarrying increased by $9.7 \%$, while the Manufacturing decreased by $9.0 \%$ and the Electricity, gas, steam and air conditioning supply decreased by $7.8 \%$.

Industrial production in Montenegro in III quarter 2022 compared with II quarter 2022 stay on same level. At the sector level, compared to II quarter 2022, Mining and quarrying increased by $47.3 \%$, while the Manufacturing decreased by $11.5 \%$ and the Electricity, gas, steam and air conditioning supply increased by $14.8 \%$.

## METHODOLOGICAL NOTES

Industrial production and turnover indices are one of the most important short-term indicators and a basis for decision making in the area of economy.

Industrial survey is harmonized with EU Regulation 1165/98 and Regulation 1502/2006 and the concepts and definition used in this survey are in line with these regulations. Survey provides the data on industrial production and turnover in industry.

Statistical Business Register (SBR) is used as the frame for the coverage for the purposes of this survey. Reporting units for industrial production indices are businesses engaged in the industrial production (sectors B, C and D of Activity Classification), while for calculate industrial turnover indices are businesses engaged in the industrial production (sectors $B$ and $C$ of Activity Classification), as well as parts of commercial businesses classified into other sectors of Activity Classification. and they satisfy the criteria for this survey.

Quantities of finished products covered by sections B. $C$ and D of Activity Classification are used for calculation of industrial production index-total. Turnovers in sections $B$ and $C$ of Activity Classification are used for calculation of industrial turnover indextotal. according mentioned EU Regulations.

Data are published according Statistical Release Calendar.

The last published data are considered preliminary, and becomes final within the defined deadline, as foreseen by the Statistical Release Calendar.
