

INVESTICIJE

Izvori i metode prikupljanja podataka

Podaci o ostvarenim i isplaćenim investicijama prikupljaju se istraživanjem o investicijama u osnovna sredstva od pravnih lica u zemlji ako su neposredni investitori. Metod prikupljanja podataka je uzorački.

Investicije privatnog sektora bez pravnih lica (investicije fizičkih lica) prikupljuju se na bazi posebnog uputstva Uprave za statistiku, a korišćenjem raspoloživih podataka iz postojećih statističkih istraživanja.

Obuhvat

Istraživanjem o investicijama u osnovna sredstva obuhvaćena su privredna društva u Crnoj Gori koja su neposredni investitori a prema Klasifikaciji djelatnosti 2010. registrirana su u sektorima od A do S. U istraživanju je primijenjen stratifikovani uzorak. U uzorak su uključena sva preduzeća iz klase 2 i 3, dok su preduzeća iz klase 1 izabrana metodom prostog slučajnog uzorka. Podaci su agregirani prema pretežnoj djelatnosti investitora.

Definicije

Investicijama u osnovna sredstva se smatraju nabavke ostvarene od strane pravnih lica i drugih organizacija i zajednica u cilju dobijanja novih, povećanja vrijednosti ili zamjene postojećih osnovnih sredstava (stambene zgrade, ostale zgrade i građevine, mašine i oprema, kultivisani biološki resursi i intelektualna svojina: istraživanje i razvoj, mineralna istraživanja, računarski programi i baze podataka, zabava, književni i umjetnički originali i ostala intelektualna svojina). Nabavljena investiciona dobra mogu biti nova ili već korišćena, kupljena ili dobijena bez naknade od drugih u zemlji i inostranstvu, ili proizvedena u sopstvenoj režiji. Obuhvataju se pri tom sve vrste ulaganja u nove kapacitete, kao i za proširenja, dogradnju, rekonstrukciju i modernizaciju postojećih ili zamjenu zastarjelih, istrošenih ili slučajnom štetom uništenih kapaciteta. Investicijama se ne obuhvataju sredstva utrošena za investiciono i redovno održavanje postojećih objekata.

Isplata za investicije smatraju se novčana ulaganja u toku godine u kojoj su isplate stvarno izvršene, bez obzira na momenat njihove izgradnje ili nabavke.

Ostvarene investicije u toku izvještajne godine predstavljaju vrijednost efektivno izvršene izgradnje, izrade ili nabavke objekata, opreme i ostalog, bez obzira da li su završene i da li je njihova isplata izvršena (bez revalorizacije ostvarenih investicija).

Podaci o ostvarenim investicijama u nova osnovna sredstva odnosi se na onaj dio osnovnih sredstava koji je nabavljen neposredno od izvođača građevinskih radova, proizvođača opreme ili proizveden u sopstvenoj režiji, odnosno osnovna sredstva koja još nijesu bila predmet kupoprodaje između neposrednih korisnika tih dobara. Ovdje se uključuje i polovna oprema nabavljena u inostranstvu budući da direktno utiče na porast društvenog bogastva zemlje. U nabavku novih osnovnih sredstava razvrstane su i investicije u značajnija poboljšanja postojećih sredstava kao i investicija u značajnija poboljšanja zemljišta. Takođe se uključuju i investicije u rekonstrukcije modernizacije, dogradnju i proširenje za preuzređenje ili proširenje postojećih objekata, opreme i uredaja, u cilju proširenja obima, boljeg prilagođavanja potrebama tržišta, tehničko-tehnološkim rješenjima ili usluga.

U investicije za građevinske objekte uključuju se i vrijednost opreme koja je ugrađena u građevinske objekte (liftovi, uređaji za grijanja i sl. i projekti za njih).

Investicije u opremu obuhvataju i troškove montaže, prevoza, carine i osiguranja.

Investicije u ostalo prikazuju ulaganja u kultivisane biološke resurse (plantaze i pošumljavanje, osnovno stado) i intelektualnu svojinu (istraživanje i razvoj, mineralna istraživanja, računarski programi i baze podataka, zabava, književni i umjetnički originali i dr.).

INVESTMENTS

Sources and methods of data collection

The data on realized and paid investments are collected by survey on investments in fixed assets from legal entities in the country if they are direct investors. The method of data collection is sampling.

The data on investments of private sector without legal persons (investments of natural persons) are collected in accordance with special instructions of Statistical Office of Montenegro on the basis of available data from other statistical surveys.

Coverage

The survey on investments in fixed assets includes enterprises in Montenegro which are direct investors and registered in sectors A to S according to the Classification of Activities NACE Rev2. The stratified sample was applied in the survey. All enterprises in classes 2 and 3 were included in the sample, while enterprises in class 1 were selected by the method of simple random sampling. The data are grouped according to the major activity of investors.

Definitions

Investments into fixed capital are purchases made by enterprises and other legal persons and associations in order to obtain new assets, increase the value of existing assets or replace them (residential buildings, other buildings and objects, machinery and equipment, cultivated, biological resources and intellectual property, research and development, mineral reasearches, PC programs, and databases, entertainment, literary and art originals and other intellectual property). Acquired investment goods can be new or already used, purchased or received with no compensation from others in country and abroad, or self-produced. All investments into new facilities are included, as well as investments for capacity extensions, re-building and modernization of existing facilities or replacement of old ones, ruined or destroyed by accident. Investments do not cover investment expenditures and regular maintenance of existing infrastructure.

Payments for investments are investments in cash during a reference year in which payments were actually made regardless the time of construction or purchase.

Realized investment during the reference year is the value of actual construction, building or procurement of facilities, equipment etc., regardless of whether they are completed or not and payment made (without revaluation of realized investment).

The data on realized investments in new fixed assets refer to the fixed assets directly purchased from the builder contractor, producers of equipment or to those produced on their own, that is the assets that were not bought or sold earlier. Here, we also include the used equipment purchased abroad since it has a direct impact to the growth of national wealth. Both, the investments in significant improvements of existing fixed assets and investments in significant improvements of land area are also considered as the purchase of new fixed assets. Moreover, investments in reconstructions, modernization, adding on or enlargement of existing facilities, equipment and machines for the purpose of further development, better adjustments to the market needs, technical-technological solutions or services.

Investments in buildings include also the value of the integral equipment mounted or built in (elevators, heating systems and similar as well as associated project)

Investments in equipments include also the costs of their mounting, transport, customs duties and insurance.

Other investments include investments in cultivated biological resources (plantation and reforestation, breeding stock) and intellectual property (research and development, mineral exploration, computer programs and databases, entertainment, literary and artistic originals, etc.).
