## METHODOLOGICAL NOTES

Wholesale statistics covers and presents turnover of enterprises with the wholesale as their main activity.
The survey is conducted on the basis of a sample and includes companies that are registered in Area 46 according to the Classification of Activities (NACE Rev2). Sample covers all large and medium-sized enterprises, while small enterprises are set by using the random sample method.

The turnover in the wholesale trade is a value of goods delivered by companies/organizations engaged in the turnover: wholesale trade companies, other companies for further manufacturing, and large customers for their own consumption (health and social care organizations, education, defence, etc.).

Data are published according Statistical Release Calendar.
The last published data are considered preliminary and becomes final within the defined deadline, as foreseen by the Statistical Release Calendar.
