### ANNUAL PLAN OF OFFICIAL STATISTICS

Domain : Macroeconomic statistics

Ordinal number of survey: 67 Code of survey: FISIM

Name of producer of official statistics: Statistical Office of Montenegro - MONSTAT

Organizational unit: Department for macro-economic statistics and national accounts

Name of the survey: Creation of elements required for the calculation of gross domestic product: calculation of financial services indirectly measured

Level of publishing data: Montenegro

Publishing periodicity: Annual, as an integral part of gross domestic product

Source of data: Central Bank of Montenegro

Deadline for data collection: 30th June of current year for the previous one

Deadline for publishing data : 25th September of current year for the previous one, as an integral part of gross domestic product

Research method: Compilation

Connection with the European Statistics: Domain 2, Theme 2.01, Module 2.01.02.

Development of activities in accordance with the Programme of statistical surveys: 2.01.

Goal of survey :

Financial intermediation services (FISIM) represents income from financial assets that receive financial intermediaries, reduced by the interest payments, excluding income from the investment of their own funds because they are not the result of financial intermediation. On the side of use FISIM appears as intermediate consumption of other institutional sectors, as household final consumption and as an exports to non-residents. The difference between active and passive interest rates, ie. higher interest rates, that banks charge on loans and lower that the bank pays on the deposits received, and they are used to cover the costs incurred and the creation of operating surplus.
