Labour Force survey

2nd quarter 2019

This release contains data received through the Labour Force Survey conducted in the second quarter 2019 and the observation period was from April to June 2019. The interviewing was done in 2 171 households on the territory of Montenegro. There were collected data about demographic characteristics for all members of the households (6 445 persons were surveyed) and in addition also data about economic activity for persons aged 15 and more (5 527 persons).

According to the data for the second quarter of 2019, there were 289.5 thousands of active population in Montenegro, out of which there were 248.0 thousands of employed persons or 85.7% and 41.5 thousands of unemployed or 14.3%. The number of persons in employment in comparison with the previous quarter has increased by 5.5% and in comparison with the same quarter of previous year has increased by 3.3%. The number of unemployed in comparison with the previous quarter has stayed on same level and in comparison with the same quarter of previous year has increased by 2.5%.

There were 211.4 thousands of inactive populations. The number of inactive in comparison with the previous quarter this number has decreased by 5.8% and in comparison with the same quarter of previous year has decreased by 3.5%.

The activity rate for the second quarter 2019 is 57.8%, the employment rate is 49.5%, the unemployment rate is 14.3% and the inactivity rate is 42.2%.

Chart 1. Working age population by status in activity
(in thousands)

**Chart 2. Working age population by status in activity and sex
(in thousands)**

Out of total number of labour force (active population), there are 162.6 thousands or 56.1% of men, and 127.0 thousands or 43.9% are women, while 128.8 thousands or 60.9% of inactive persons are women and 82.6 thousands or 39.1% are men. Out of total number of employed persons, there are 141.4 thousands or 57.0% of men, and 106.5 thousands or 43.0% are women. When unemployed persons observed, there are 21.1 thousands or 50.8% of men and 20.4 thousands or 49.2% are women.

**Chart 3. Working age population by status in activity and age groups
(in thousands)**

The highest number of labour force (active population) refers to the age group 25-49 years (171.7 thousands). An age group with the highest number of inactive persons is the 65+ group (70.2 thousands of inactive persons). The highest number of employed persons refers to the age group 25-49 years (144.8 thousands). Also, the highest number of unemployed persons are persons of the same age group (26.9 unemployed persons).

**Chart 4. Working age population by status in activity and educational attainment
(in thousands)**

The educational structure of labour force (active population) shows that 61.2% persons have finished the secondary school, followed by persons who have graduated tertiary education 28.9% and persons who finished the primary school or lower education 9.9%.

The highest share in the educational structure of inactive persons older than 15 years has persons with completed secondary education, 51.4%; then 38.5% of persons with primary school or lower education and remaining 10.1% have graduated tertiary education.

The educational structure of persons in employment shows that the 60.8% persons have finished secondary education, followed by persons who have graduated tertiary education (30.5%), and persons with primary school or lower education 8.7%.

The educational structure of unemployed persons shows that 63.7% persons have finished the secondary education, followed by persons who have graduated tertiary education 19.2% and persons who finished the primary school or lower education 17.1%.

The structure of persons in employment by status in employment shows the highest share of employees, 79.6%. The share of self-employed persons is 17.2% and the share of unpaid family workers was 3.2%.

Chart 6. Persons in employment by sectors of activity

The structure of persons in employment by sectors of activity shows that the highest share of them works in the service sector, 73.1%; than in industry and construction, 19.6% and 7.4% in agriculture, forestry and fishing.

Chart 7. Unemployed persons by duration of unemployment (in thousands)

In the observed period, there were 8.6 thousands or 20.7% of unemployed persons who searched for work for less than 12 months; 6.5 thousands or 15.7% of unemployed persons searched for work up to 2 years, while 26.4 thousands or 63.6% of unemployed persons searched for work 2 years and over.

METHODOLOGICAL EXPLANATIONS

The Labour Force Survey is carried out in compliance with standards and recommendations of the International Labour Organisation (ILO) guidelines for labour force statistics, as well as in compliance with European legislative acts of the Council and Parliament, and with EUROSTAT's requirements in relation to a methodology, survey organisation, sample procedure, design of questionnaires and definition of employment and unemployment.

Labour Force Survey provides the data on population aged 15 years and over by activity in the reference quarter, not by formal status of interviewed persons.

Working age population comprises all persons aged 15 years and over.

The term employed in the survey refer to persons who:

- performed any work for wage or profit (in cash, goods or services) during the reference week, even for one hour. Persons who receive wages for on-the-job training (apprentices or trainees) are also considered as employed.
- did not work (due to illness, annual leave or state holidays, education or training, maternity/paternity leave, reduced production and other temporary inability to work) but had a job or business from which he/she was absent during the reference week is considered as employed.

Self-employed persons with a business or farm are also considered to be working if one of the following applies:

- A person works in his own business or farm for the purpose of earning a profit, even if the enterprise is failing to make a profit;
- A person spends time on the operation of a business or farm even if no sales were made, no professional services were rendered, or nothing was actually produced (for example, a farmer who engages in farm maintenance activities; an architect who spends time waiting for clients in his/her office; a fisherman who repairs his boat or nets for future operations; a person who attends a convention or seminar);
- A person is in process of setting up a business or farm, such as the buying or installing of equipment, renting the office or ordering of supplies in preparation for opening a new business;
- A person who works on its own agriculture farm should be considered as employed if worked during the reference week. A person who works on its own small agriculture farm, and sell their products are also considered as employed.

A family worker is a person who assisted the other member of the household in running family business or agricultural holding, without receiving any formal pay, and providing that they not considered themselves as employed.

The term unemployed refers to persons who:

- in the reference week did not work (not in paid employment or self-employment and did not do any paid work),
- in the past four weeks were actively seeking work (specific steps were taken to seek paid employment or self-employment),
- were currently available for work (within two weeks).

Persons who had found a job to start later are also included among unemployed persons.

Active population (labour force) include persons in employment (employed persons) and unemployed persons aged 15 years and over.

Inactive population are all persons aged 15 years and over, who are neither employed nor unemployed.

Activity rate represents the percentage of active population in the total population aged 15 years and over.

Employment rate represents the percentage of persons in employment in the total population aged 15 years and over.

Unemployment rate represents the percentage of unemployed persons in the total active population.

Inactivity rate represents the percentage of inactive population in total population aged 15 years and over.
