METHODOLOGICAL EXPLANATIONS

Data source and coverage

The data presented are collected under quarterly report on prices of dwellings in new residential buildings GRADJ-41 covering sold dwellings in new residential buildings, i.e. dwellings on the basis of sale contract.

Definitions

The total price of dwelling covers price of constructing, price of arranging the construction land, and other costs.

For the purpose of appropriate access to the data use, there should be noted that the prices published (prices per 1 m²) are average prices, thus they are the result of different characteristics of construction and differences in a month when the sale contract was concluded at one territory (of town and Montenegro).

All prices represent nominal expression of value from sale contract (without revalorization), and they are expressed per 1m² of useful (housing) area.

¹ The data presented are only for selected towns with existing dwellings in new residential buildings

² The data under this item refer to Berane, Bijelo Polje, Herceg Novi, Kotor, Rožaje and Ulcinj
