

Industrial production 2010

The production of more important industrial products in Montenegro in 2010 can be presented in different manners. Important industrial products are products classified in the area of Activity Classification with the largest share in the total industrial production.

In 2010 the production of the following products increased compared with the production from 2009: lignite with an increase of 957 164 t to 1 937 847 t, i.e. 104.4%, electricity with 2 759 751 MWh to 4 169 009 MWh, i.e. 51.1% and steel ingots with 13 817 t to 33 178 t, i.e. 140.1%.

In 2010 there was a decrease of production among the following products when compared with the production from 2009: heavy, light steel and light steel bars – a decrease from 82 725 t to 33 178 t, i.e. 67.4%, beer from 456 896 hl to 423 799 hl, i.e. 7.3%, and wheat flour with 38 065 t to 31 408 t, i.e. 17.5%.

Annual indices of industrial production

Production of more important industrial products 2010

NACE	Name of products	Unit of measurement	2006	2007	2008	2009	2010
C	MINING AND QUARRYING						
10	Lignite	t	1502334	1195515	1740076	957164	1937847
13	Red bauxite	t	659370	667053	671811	45779	61205

METHODOLOGICAL EXPLANATIONS

Annual survey IND-21 collects the following data on industrial production: quantities of stocks at the beginning of the year; production realised (within that there are presented the data on produced quantities, and separately for service produced quantities); quantity spent for further manufacture; quantity at the end of year; quantity; and value of product sale. A separate list monitors purchase, expenditures, stocks of energy, and fuel for operating and technological purposes.

The **reporting method** is applied – every reporting unit drafts a report in the form (questionnaire) IND-21. Reporting units submit the Annual Report on Industry for previous year to the responsible regional unit, not later than 20 April of current year. The data sources are bookkeeping, warehouse records, and other records, and documentation available at the reporting unit.

The reporting unit should submit the filled questionnaire IND-21 to responsible statistical authority, not later than 20 April of current year for previous year.

The deadline for first results of processing IND-21 by the side of MONSTAT is 30 October of current year.
