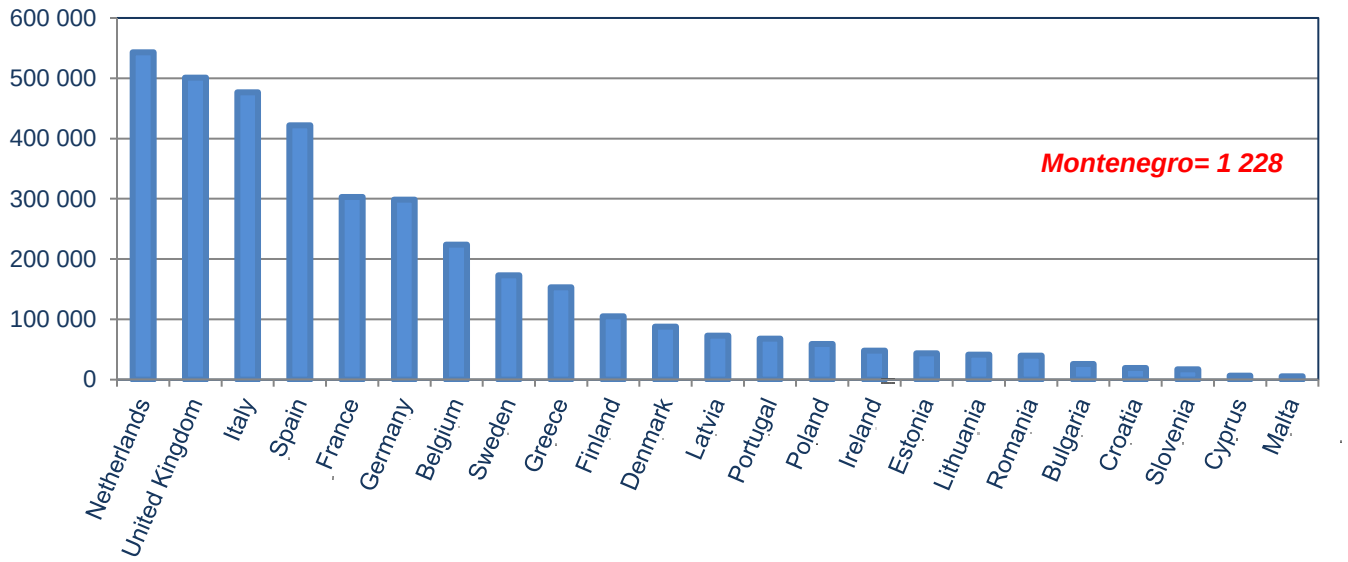
Graph 3. Transport of goods in thousands tones in 2012 year



METHODOLOGICAL NOTES

Source of data

The data turnover of goods in ports are the result of regular quarterly surveys on the arrival and departure of ships in ports.

Coverage

The surveys cover enterprises classified within the Classification Unit Register by Activity Classification in Section H (Transport and storage), Area 50.

Definitions

Ports are places for loading/embarkation and unloading/disembarkation passengers and goods at the seashore built particularly for this purpose, while docks are similar places on riverbanks and lakefronts.

Total port traffic in addition to the export and import also comprises inland traffic.
