METHODOLOGICAL NOTES

Survey Report on Arrival of Foreign Vessels on Cruise aims at obtaining the data on number of cruises realised in the internal sea waters of Montenegro, as well as number of passengers arrived in Montenegro during these cruises. The data collection is done by reporting method (TU-19 form). Reporting units are seaports. The report is filled for the first entry of vessel in the internal sea waters of Montenegro.

Cruise is a touristic journey which lasts for several days according to a specified itinerary (elaborated plan of a journey) for cruises.

Number of cruise passengers is a number of passengers on vessel excluding the crew. A passenger is any person who arrived by ship irrespective of age providing that he/she is not a crew member.
