Subject: Conference on social and economic statistics 2010-2011

There was held a conference: *Social and Economic Statistics 2010-2011*

In 2011 Statistical Office of Montenegro – MONSTAT conducted 162 surveys and Population census. MONSTAT published 13 publications and 201 releases for surveys on demographic, and social trends, as well as on environment situation in Montenegro. The survey results from previous year are provided in the Statistical Yearbook 2011 which was published at the end of December 2011.

In regards with a large number of surveys, the conference on social and economic statistics presented to the public a part of results related to economic and social trends, as well as results on trends in the labour market in 2010 and 2011. All other survey results can be found both at the official website of MONSTAT, and the Statistical Yearbook.

MONSTAT has announced at the conference that economic, social, demographic, and environment situation in 2012 will be monitored by over 165 surveys, and the results will be published monthly, quarterly, and annually, in accordance with the Publication Calendar, downloadable at the MONSTAT website: www.monstat.org
