METHODOLOGICAL NOTES

The presented data are collected through survey on construction activity (GRADJ-31). The survey is realised on a sample basis. The frame for a sample is enterprises with 5 and more employees who are, in the Statistical Business register according to the Classification of activities, classified in sector F – Construction, as well as companies (KAU) whose business units engaged in construction works. Survey covers all large and medium enterprises (class 2 and 3), while small enterprises (class 1) is selected by random simple sample.

Value of finalised construction works includes: material costs; labour costs; demolition and preparation of field; installation costs; general costs, and profit. The value does not include expenses of buying the land, engineering, monitoring and VAT. The data on value of finalised construction work refer to works performed in the reporting period on finished and unfinished constructions. The value of finalised construction works is expressed in the current prices.

Effective hours worked present the hours actually worked by workers engaged at the construction sites during regular working hours, as well as overtime work.
