Table 2. Dwellings in buildings for which building permits and permits for notification of building work, by types of constructions
II quarter 2020

Residential buildings	Number of dwellings	Floor area in m ²
Total	876	50 125
With one dwelling	14	2 423
With two dwellings	10	853
With three and more dwellings	847	46 466
Addition (extension)	5	383

METHODOLOGICAL EXPLANATIONS

The presented data covered the number of building permits, as well as number and floor area of dwellings in building for who's the building permits and notification of building work are issued. The source of data is Ministry of Sustainable Development and Tourism.

The investor is a person for whose needs a construction is built, i.e. a person who finance the construction and on whose name the building permit is issued. Investor may be legal or natural person.

Building is a structure that has a roof and external walls, whether they are independent or shared walls in cases where one building leans to the other, with one or more entrance, and it was built like an independent usable units and purposes of the for housing.

Dwelling is any connected unity in construction permits, intended for dwelling, consisted of one or more rooms with appropriate additional premises (kitchen, bathroom, lobby, pantry, toilet, and similar), or without additional rooms, and it can have one or more separate entrances.

Floor area is useful floor area measured inside the dwelling walls.

Data are published according [Statistical Release Calendar](#).

The last published data are considered preliminary, and becomes final within the defined deadline, as foreseen by the Statistical Release Calendar.
