## METHODOLOGICAL NOTES

The data on secondary education in this release refer to the end of school year 2022/2023, and they are results of statistical processing of the Ministry of Education, Science and Innovation (MEIS).

The statistical survey covered all secondary schools, and resource centres that work in accordance with the programme of Ministry of Education.

School year is the period in which regular classes and other forms of educational work take place. In education statistics, a school is considered a group of students organized into one school unit, with several teachers who teach according to the established programme.

Students who finished school in secondary education obtained the III and IV level of education according to the International Standard Classification of Education (ISCED 2011) level ISCED 3.

When using the data, state: "Data source: Statistical Office of Montenegro - MONSTAT"

*More information, as well as detailed methodological explanations can be found in the section: [Secondary education](#)*
