## METHODOLOGICAL NOTES

Wholesale statistics covers and presents turnover of enterprises with the wholesale as their main activity.

The survey is conducted on the basis of a sample and includes companies that are registered in Area 46 according to the Classification of Activities (NACE Rev2). Sample covers all large and medium-sized enterprises, while small enterprises are set by using the random sample method.

The turnover in the wholesale trade is a value of goods delivered by companies/organizations engaged in the turnover: wholesale trade companies, other companies for further manufacturing, and large customers for their own consumption (health and social care organizations, education, defence, etc.).

Data are published according [Statistical Release Calendar](#).

The last published data are considered preliminary, and becomes final within the defined deadline, as foreseen by the Statistical Release Calendar.

When using the data, state:

"Data source: Statistical Office - MONSTAT"

*More data, as well as detailed methodological notes can be found in the section: [Turnover in wholesale trade](#)*
