## QUALITY POLICY OF MONTENEGRO STATISTICAL SYSTEM

### STRATEGIC OBJECTIVE

The aim of official statistics is to provide quantitative and representative information on economic, demographic, social situation, and situation of environment in Montenegro, in line with internationally defined methodology and highest professional standards.

### VISION

The vision of Montenegro statistical system is the production of coherent, relevant, and objective official statistical data, based on international concepts, methodologies, and strict regime of data protection.

### MISSION

The mission of Montenegro statistical system is to provide:

1. Appropriate, relevant, reliable, and timely official statistical data, to help planning and decision making within the Government of Montenegro and community;
2. Production and dissemination of official statistics is aligned with scientific principles, professional ethics, and international standards.

### OPERATIVE OBJECTIVES

1. Establishment of permanent dialogue with data users and development of partnership;
2. Education of statisticians as data scientists;
3. Further harmonization and innovation of official statistics with international standards/recommendations;
4. Creating new data sources for the production of official statistics;
5. Further implementation of Official Statistics Code of Practice;
6. Development of IT integrated system for collection, processing, and documentation of official statistical data;
7. Development of dissemination and communication of data in line with the needs of digital society.
