### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2018

<b>PRIORITY AREA:</b>	Economic and Social Performance	
Ordinal number of survey:	30	Code of survey: BDP-O
Producer of the official statistics:	Statistical Office	
Organizational unit:	Department for Macro-economic Statistics and National Accounts	
Name of the survey:	Calculation of annual gross domestic product by production approach	
Level of publishing data:	Montenegro	
Publishing periodicity:	Annual	
Source of data:	Administrative source - Statistical Office , Tax Administration, Ministry of Finance, Central Bank of Montenegro, Agency for Insurance Surveillance, Securities Commission	
Deadline for data collection:	Up to 29 June of current year for the previous year	
Deadline for publishing data:	28 September 2018	
Research method:	Compilation	
Connection with the European Statistics:	Priority area 04, Module 04.1.21	
Development of activities in accordance with the Programme of official statistics 2014 - 2018 year:	2.01.	Annual economic accounts
<b>Aim of the survey:</b>	<p>The aim of calculation of gross domestic product GDP by production approach is to obtain main and the most important macroeconomic aggregate in the national accounts system. This aggregate is a result of production activities of all residential institutional units, this is an indicator of economic activity for the whole country. GDP by production approach is calculated as the sum of value added of all resident institutional units, i.e. as the difference between output (production gross value) and intermediary consumption. The advantage of this method of calculation is an overview of contributions of individual activities to overall economic growth of the country.</p>	
Financial resources required for the implementation of statistical survey:	24,884.14 EUR

Quarterly and annual national accounts: main aggregates

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2018

<b>PRIORITY AREA:</b>	Economic and Social Performance	
Ordinal number of survey:	36	Code of survey: QBDP-E
Producer of the official statistics:	Statistical Office	
Organizational unit:	Department for Macro-economic Statistics and National Accounts	
Name of the survey:	Calculation of quarterly gross domestic product by expenditure approach using the direct approach	
Level of publishing data:	Montenegro	
Publishing periodicity:	Quarterly	
Source of data:	Administrative source - Statistical Office , Ministry of Finance, Central Bank of Montenegro, Customs Administration	
Deadline for data collection:	Quarterly: 50 days after the end of reference quarter	
Deadline for publishing data:	Quarterly: I quarter - 22 June 2018; II quarter - 28 September 2018; III quarter - 21. December 2018; IV quarter - 22 March 2019	
Research method:	Compilation	
Connection with the European Statistics:	Priority area 04, Module 04.1.21	
Development of activities in accordance with the Programme of official statistics 2014 - 2018 year:	2.02.	Quarterly accounts
<b>Aim of the survey:</b>	The aim of quarterly calculation of GDP by expenditure approach is to provide the main macroeconomic aggregate in the national accounts - NA system. Applying this approach it is possible to observe the establishment of main relation on which the NA are based, in other words, that total value of available goods and services (supply) must be equal to total value of spent goods and services (use) in the observed period at the total economy value. Quarterly gross domestic product by expenditure approach is calculated as the sum of household consumption, government consumption, investment, changes in inventories and net exports of goods and services.	
Financial resources required for the implementation of statistical survey:	35,687.43 EUR

Supply, use, and input-output tables

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2018

PRIORITY AREA: Economic and Social Performance

Ordinal number of survey: 38 Code of survey: BDP-SUT

Producer of the official statistics: Statistical Office

Organizational unit: Department for Macro-economic Statistics and National Accounts

Name of the survey: Compilation of supply and use table

Level of publishing data: Montenegro

Publishing periodicity: Annual

Source of data: Administrative source - Statistical Office, Ministry of Finance, Central Bank of Montenegro, Tax Administration, Agency for Insurance Surveillance, Securities Commission

Deadline for data collection: Up to the end of March 2018 for reference 2015

Deadline for publishing data: /

Research method: Compilation

Connection with the European Statistics: Priority area 04, Module 04.1.22

Development of activities in accordance with the Programme of official statistics 2014 - 2018 year: 2.01. Annual economic accounts

Aim of the survey:

Supply and use tables provide a detailed analysis of supply and demand of products and services. The supply table shows the sources of supply of product in one economy. The use table provides information on use of products, and other primary factors of production spent. The main principles of these two tables is that the total supply of products must be equal to the total use of these products.

Financial resources required for the implementation of statistical survey: 30,042.78 EUR

Sustainable development indicators: production and dissemination

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2018

<b>PRIORITY AREA:</b>	Economic and Social Performance	
Ordinal number of survey:	50	Code of survey:
Producer of the official statistics:	Statistical Office	
Organizational unit:	Statistical departments	
Name of the survey:	Sustainable development indicators	
Level of publishing data:	Montenegro	
Publishing periodicity:	Annual	
Source of data:	Reporting units – enterprises and households, administrative sources	
Deadline for data collection:	Up to 30 December	
Deadline for publishing data:	2018	
Research method:	Interview, compilation, estimation	
Connection with the European Statistics:	Priority area 04, Module 04.2.43	
Development of activities in accordance with the Programme of official statistics 2014 - 2018 year:		
<b>Aim of the survey:</b>	<p>At the 70th session of UN General Parliament held in September 2015 there was adopted the Sustainable Development Agenda up to 2030. It represents a framework for the implementation of ambitious agenda set by the final document Rio+20 summit. Having in mind its scope and importance. The 2030 Sustainable Development Agenda is a document without unprecedented and accepted by all UN member countries. The Agenda applies to all countries having in mind different national circumstances, capacities and development level, respecting national policies and priorities. It defines 17 universal aims and 169 tasks referring to the entire world, both on developed and developing countries. The Government of Montenegro adopted the National Strategy of Sustainable Development up to 2030 at its session on 7 July 2016. This Strategy develops the sustainable development policy of Montenegro and established a framework for national response to the challenges in front of Montenegrin society toward the sustainable development up to 2030, having in mind the results of implemented previous strategy and requests in the association process of Montenegro to the EU. For the purpose of establishing the system for conducting and reporting the implementation of the Strategy for Sustainable Development up to 2030, there have been carried out an analysis of 241 sustainable development indicators defined by the UN Statistical Commission. The National Strategy of Sustainable Development of Montenegro up to 2030 defines possibilities and obligations of official statistical producers in Montenegro. Statistical Office fully monitors 16 indicators, partly monitors 13 indicators, for which there should be created conditions for their fully introduction in the monitoring system up to 2018. Up to 2018 there is planned to be monitored more 7 indicators. Statistical Office will not be able to fulfil previously defined complex obligations within monitoring of implementation of the Strategy up to 2030, i.e. Agenda for Sustainable Development up to 2030, if there is not enabled a satisfying level of resources (spatial, technological, and financial). It is about an extra-ordinary challenged that should be supported by an important increase in the Budget of Montenegro to ensure additional necessary resources as well as for necessary statistical surveys.</p>

Source of data:	Business entities that perform the activity in the sectors of Activity Classification 2010 (KD 2010): B - Mining and quarrying - Manufacturing	
Deadline for data collection:	Up to 11 May of current year for the previous year	
Deadline for publishing data:	22 June 2018	
Research method:	Reporting method	
Connection with the European Statistics:	Priority area 06, Module 06.1.24	
Development of activities in accordance with the Programme of official statistics 2014 - 2018 year:	3.01.	Annual Business Statistics
<b>Aim of the survey:</b>	<p>The aim of survey is the collection of data on physical volume of industrial production and values of production. The data on quantities of industrial production represent important information that can be used for creating economic policy, monitoring the trends of economic activity, especially for the national accounts purposes. The survey processes the following data on industrial production: quantity of inventories at the beginning of year, production achieved, quantity spent for further production, quantity of inventories at the end of year, quantity and value of sold products. Also, the survey collects the data on inventories, supply and spending of energy and fuel for technological purposes.</p>

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2018

**PRIORITY AREA:** Geospatial, Environmental, Agricultural and Other Sector Statistics

Ordinal number of survey: 171 Code of survey: LOV -11

Producer of the official statistics: Statistical Office

Organizational unit: Department for Statistics of Environment and Forestry

Name of the survey: Report on hunting

Level of publishing data: Montenegro

Publishing periodicity: Biannual

Source of data: Users of hunting grounds that are provided with hunting grounds to manage them

Deadline for data collection: Up to 16 April 2018

Deadline for publishing data: 2 November 2018

Research method: Reporting method

Connection with the European Statistics: Priority area 08 Module 08.2.34.

Development of activities in accordance with the Programme of official statistics 2014 - 2018 year: 4.05. Forestry statistics

**Aim of the survey:**

The aim of survey is to collect the data on number of game shot, employed personnel, hunting buildings and facilities, hunting areas, and hunters.

Financial resources required for the implementation of statistical survey: 0.00 EUR

Responsible person :

Nataša Vojinović

Transport statistics

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2018

<b>PRIORITY AREA:</b>	Geospatial, Environmental, Agricultural and Other Sector Statistics	
Ordinal number of survey:	189	Code of survey: SN/K-11
Producer of the official statistics:	Statistical Office	
Organizational unit:	Department for Business Statistics and Short-term Indicators	
Name of the survey:	Report on number of transport accidents	
Level of publishing data:	Municipality, Montenegro	
Publishing periodicity:	Quarterly	
Source of data:	Administrative source - Police Administration	
Deadline for data collection:	Quarterly: I quarter - 13 April 2018; II quarter - 12 July 2018; III quarter - 12 October 2018; IV quarter - 18 January 2019	
Deadline for publishing data:	Quarterly: I quarter - 17 May 2018; II quarter - 16 August 2018; III quarter - 19 November 2018; IV quarter - 15. February 2019	
Research method:	Administrative source	
Connection with the European Statistics:	Priority area 08, Module 08.3.61	
Development of activities in accordance with the Programme of official statistics 2014 - 2018 year:	3.04.	Transport
<b>Aim of the survey:</b>	The aim of this survey is to collect, process, and publish data on the volume of traffic accidents, dead and hurt people, and material damage. The data are used to track the dynamics of volume and trend of the observed phenomena.	
Financial resources required for the implementation of statistical survey:	7,568.78 EUR

**Aim of the survey:**

The purpose of this survey is to collect the data on the quantity of pesticides placed on the market.

Financial resources required for the implementation of statistical survey: 2,427.11 EUR

## EXPLANATION

Legal basis for the adoption of the Annual Plan of Official Statistics is contained in Article 23 and Article 24 of the Law on Official Statistics and Official Statistical System (Official Gazette of Montenegro No 18/12), that defines that the Annual Plan of Official Statistics, upon previously opinion of the Council of Statistical System, is adopted by the Government of Montenegro. The Annual Plan of Official Statistics is derived from the Programme of Official Statistics as a short-term document, with further details on statistical activities for a relevant year.

The annual plan of official statistics for 2018 plans the realization of 221 statistical activities. Of the total number of planned statistical activities, 174 (or 79%) will be implemented by the Statistical Office of Montenegro as the main coordinator and disseminator of statistical data, while 47 (or 21%) of the planned activities will be realized by other producers of official statistics.

A summary of key changes in the Annual Plan of Official Statistics for 2018 compared with the Annual Plan of Official Statistics for 2017 is the following:

- 1. New statistical activities** (13) introduced for the purposes of harmonization of the official statistics of Montenegro with the *Acquis communautaire* for the statistics. Under competence of Statistical Office there are 11 new statistical activities out of total number of new statistical activities planned according to the Annual Plan of Official Statistics for 2018. and (2) under competence Central Bank of Montenegro;
- 2. Terminating statistical activities** (8) - under competence of Statistical Office of Montenegro (1) and under competence of Tax Authorities (7);
- 3. Introduction of pilot statistical activities** (10) that are introduced in cases when the assessment of methodology or quality of source of data to be collected by statistical survey is necessary to be done;
- 4. Change of dynamics in data publication** (12) is caused by the availability of source data as well as by both improvement of organization and control of statistical processes;
- 5. Improving data collection methods** - using the CAPI method.

Proposal of financial resources planned for carrying out statistical surveys of Statistical Office for 2018 are 2.31 million of euro.
