

SAOBRAĆAJ, SKLADIŠENJE I VEZE

Izvori i metodi prikupljanja podataka

Podaci opšteg pregleda saobraćaja, skladištenja i veza preuzeti su iz drugih statistika čiji su rezultati i metodološka objašnjenja dati u odgovarajućim poglavljima Godišnjaka. Svi ostali podaci rezultat su redovnih mjesecnih i godišnjih izvještaja izveštajnih jedinica kojima je saobraćaj osnovna djelatnost.

Obuhvat

Podaci obuhvataju sve jedinice na području Crne Gore kojima je saobraćaj osnovna djelatnost. Svi podaci o željezničkom, pomorskom, vazdušnom saobraćaju i vezama potpuno su uporedivi jer je obuhvaćenost potpuna i odnosi se na javni saobraćaj.

Definicije

Pod prevozom u saobraćaju podrazumijeva se kretanje putnika i tereta od mjesta ukrcavanja do mjesta iskrcavanja, a predstavlja rad saobraćajnih organizacija. Promet u stanicama, u lukama, pristaništima i aerodromima je ukrcavanje odnosno iskrcavanje, tranzit putnika i robe.

Tonski kilometar označava prevoz jedne tone robe na rastojanju od 1 km.

Putnicki kilometar označava prevoz jednog putnika na rastojanju od 1 km.

Pod *prometom* podrazumijeva se samo ukrcavanje odnosno iskrcavanje u stanicama, lukama i pristaništima.

Bruto register-tona brodova je zapreminska mjera od $2,83m^3$. BRT obuhvata cijeli zatvoren prostor broda ispod i iznad palube, a NRT samo koristan prostor. DWT označava bruto nosivost broda, tj. ukupnu dozvoljenu težinu tereta koji se može jednovremeno smjestiti u brod.

Luke su mjesta ukrcavanja i iskrcavanja putnika i tereta na morskoj obali, koja su posebno izgrađena za tu svrhu, dok su pristaništa takva mjesta na obalama rijeka i jezera.

Javni putnički odnosno *teretni autosobraćaj* obuhvata prevoz putnika odnosno robe, koji obavljaju autosobraćajne organizacije, turističke, PTT, željezničko-transportne organizacije i saobraćajni pogoni ostalih organizacija koje se bave javnim prevozom putnika.

Pismenosne pošiljke u unutrašnjem prometu odnose se samo na otpremljene, a u međunarodnom prometu na otpremljene i primljene. U podacima o pismima nalaze se štampane stvari, robni ogledi, poslovni papiri, pošiljke za slijepce, avionska pošta i novine i časopisi.

Platni promet obuhvata uplate poštanskim uputnicama, uplate i isplate po žiro računima.

Telegrami obuhvataju otpremu u unutrašnjem prometu i promet sa inostranstvom, uključujući i tranzit.

Po novoj metodologiji prate se telefonski minuti u fiksnoj i mobilnoj telefoniji.

Prihodi od PTT usluga obuhvataju prihode od poštanskih usluga, od telegrafa i telefona.

TRANSPORT, STORAGE AND COMMUNICATIONS

Sources and methods of data collection

The source for data on general review of transport, storage and communications are other statistical branches whose results and methodological explanations are given in corresponding chapters of the Yearbook. All other data represent the result of regular monthly or annual reports of reporting units in public sector, having transportation as the main activity.

Coverage

Collected data include all units on the territory of Montenegro having transportation as the main activity. All data about railway, marine, air transportation and communications are completely comparable because the coverage is full and relates to public transportation in the public sector.

Definitions

Transport is movement of goods and passengers from one place to another and represents the work of transport organizations. Traffic in stations, ports, docks and airports refers to loading/embarking and/or unload/disembarking i.e. transit of passengers and goods.

One ton-kilometre (1 tkm) represents the transport of one-ton goods over a distance of one kilometre.

One passenger kilometre (1 pkm), represents the transport of one person over a distance of one kilometre.

Traffic refers only to loading/embarking or unloading/ disembarking at stations, ports and docks.

Gross register ton of ships is a unit of volume equal to $2.83m^3$. GRT covers whole closed space below and above the shipboard, while NRT is a measure of the useful capacity of a vessel. DWT is a deadweight i.e. total allowed weight of cargo which a vessel can lift.

Ports are places for embarking and disembarking of passengers and cargo on the seashore, particularly built for that purpose, while docks are similar places on riverbanks and lakefronts.

Public passenger or cargo transportation stands for transportation of passengers or goods provided by transportation organizations, tourist organizations, post offices, railway-transport organizations and means of transportation of other organizations intended for public passenger transportation.

Letter mail in internal/domestic communications relates only to mail sent, while in international communications it relates to both sent and received mail. Data include printed materials, goods models, business papers, mail for the blind, airmail and newspaper as well as magazines.

Payment operations include payments by postal money orders and transactions through giro-accounts.

Telegrams refer to internal sending as well as towards foreign countries, including the transit.

According to a new methodology we are monitored fixed and mobile telephony minutes.

Incomes from PTT services include incomes from postal, telegraph and telephone services.
