

## OBRAZOVANJE

### Izvori i metodi prikupljanja podataka

Podaci o osnovnom, srednjem i visokom obrazovanju prikupljaju se redovnim godišnjim izvještajima.

### Obuhvatnost

Godišnjim izvještajima statistike obrazovanja obuhvaćeno je osnovno, srednje i visoko obrazovanje. Podaci za osnovno i srednje obrazovanje odnose se na kraj školske godine, dok se podaci za upisane studente i nastavno osoblje na visokim školama, fakultetima i akademijama odnose na zimski semestar u kome je izvršen upis studenata. Podaci o diplomiranim studentima, specijalistima, magistrima nauka i doktorima nauka, odnose se na kalendarsku godinu.

### Definicije

U statistici obrazovanja pod pojmom škola podrazumijeva se obrazovno-vaspitna ustanova ili jedinica koja obavlja obrazovno-vaspitnu djelatnost ostvarivanjem nastavnog plana i programa. Kao škola je prikazana svaka školska jedinica, bez obzira da li je samostalna škola, matična škola, jedinica u sastavu(područno odjeljenje) ili odjeljenje pri drugoj vrsti škole.

### Redovno osnovno obrazovanje

Osnovne škole obuhvataju područna odjeljenja-jedinice u sastavu i to: četvorazredne, petorazredne, šestorazredne (nepotpune), samostalne i matične, osmorazredne i devetorazredne (potpune) osnovne škole. Do 2004/05.godine bilo je VIII-razredno osnovno obrazovanje u školama, a od 2004/05.godine uvedeno je IX-razredno osnovno obrazovanje.

### Redovno srednje obrazovanje

Srednja škola može biti osnovana kao gimnazija, umjetnička ili kao stručna škola.

U gimnaziji se stiče opšte obrazovanje iz prirodnih i društvenih nauka radi nastavljanja školovanja. Školovanje u gimnaziji traje četiri godine.

U umjetničkoj školi se stiče IV stepen stručne spreme iz oblasti muzičke i baletske umjetnosti. Školovanje traje četiri godine.

U stručnoj četvorogodišnjoj školi se stiče IV stepen stručne spreme, odnosno srednje obrazovanje za rad i dalje školovanje. Stručne škole su: građevinska, mašinska, poljoprivredna, šumarska, medicinska, ekonomска, ugostiteljska, trgovinska, saobraćajna, pomorska i dr.

U trogodišnjim stručnim školama stiče se III stepen stručne spreme.

Od školske 1987/88.godine, u srednjim školama, učenici se od prvog razreda obrazuju za odgovarajuću struku, odnosno zanimanje, a od školske 1990/91.godine srednje obrazovanje se realizuje po područjima rada i u okviru njih po obrazovnim profilima (zanimanjima).

### Obrazovanje i vaspitanje djece sa posebnim obrazovnim potrebama (osnovno i srednje)

**Obrazovanje i vaspitanje djece sa posebnim obrazovnim potrebama** je obrazovanje djece i mladih ometene u psihičkom ili fizičkom razvoju. Učenici se, po pravilu, primaju u starosti školske obaveze, ali i preko nje. Nastavni plan i program ovih škola u skladu je s planom i programom odgovarajuće redovne škole, prilagođen stepenu ometenosti učenika.

**Odjeljenja za obrazovanje i vaspitanje djece sa posebnim obrazovnim potrebama** pri odgovarajućim redovnim školama prikazana su kao školske jedinice, što je u saglasnosti sa definicijom škole kao jedinice posmatranja

## EDUCATION

### Sources and methods of data collection

Data on primary, secondary and higher education are collected through regular annual surveys.

### Coverage

Annual surveys of education statistics cover primary, secondary and higher education institutions. Data on primary and secondary education relate to the end of a school year, whereas data on enrolled students and teaching staff in higher schools, faculties and academies refer to the winter semester when students were enrolled. Data on graduated students, specialists, master's and doctor's degree holders, refer to the calendar year.

### Definitions

As by education statistics, schools are defined as educational institutions or units performing educational activity according to established educational plan and programme. Each school unit is presented as a school, no matter whether it is autonomous school, central school, regional school departments or separate department within different type of school.

### Regular primary education

*Primary schools* comprises regional school departments according to the following: four-year, five-year, six-year, (incomplete), independent and central, eight-year and nine-year (complete) primary schools Until 2004/05, there was eight-year education in primary schools, and from 2004/05, the nine-year education has been introduced in primary education.

### Regular secondary education

*Secondary school* can be established as gymnasiums, art school or vocational school.

*Gymnasiums* provide general education in natural and social sciences as a good basis for further education. The schooling lasts for four years.

*Art school* provides the 4<sup>th</sup> degree specialist's qualifications in fine arts, music and ballet. The schooling lasts for four years.

All *four-year vocational schools* provide 4<sup>th</sup> degree specialist's qualification, i.e. secondary education necessary for work and/or for further schooling. Vocational schools are construction, mechanical engineering, agriculture, forestry, health, economics, catering, business, naval and other schools.

*Three-year vocational schools* provide 3<sup>rd</sup> degree of specialist's qualification.

As of school year 1987/88, in secondary schools, students from the first grade had been educated for a certain vocation or occupation branch while as of school year 1990/91, secondary education has been realized by fields of work including educational profiles (occupations).

### Education of children with special educational needs (primary and secondary)

*Education of children with special educational needs* is education of children and youth disturbed in psychological and physical development. Pupils are registered into schools at the age when school obligation is compulsory but also over that age border. Curriculum of these schools is in accordance with curriculum of certain regular school, adapted to the level of disturbance of pupils.

Classes for *education of children with special educational needs* in corresponding regular schools are shown as school units, which is in line with the definition of school as an observation unit.

**Obrazovanje odraslih**

U školama za obrazovanje odraslih omogućuje se licima starijim od 15 godina života (odrasli), koji redovno ne pohađaju školu, da steknu osnovno obrazovanje i vaspitanje.

Odrasli osnovnu školu mogu završiti pohađanjem nastave ili polaganjem ispita. Osnovno obrazovanje za odrasle organizuje se po razredima od I do IX i traje četiri godine. Organizaciono, ove škole se javljaju kao posebne škole.

Srednje obrazovanje odrasla lica stiču kao vanredni učenici u srednjim školama.

**Osnovne muzičke i baletske škole**

Osnovne muzičke i baletske škole pripremaju djecu za nastavak školovanja u srednjim muzičkim i baletskim školama. Školovanje traje od dvije do šest godina i paralelno je s redovnim osnovnim školama.

Osnovna muzička i baletska škola u sastavu srednje umjetničke škole prikazana je kao osnovna muzička i baletska škola.

**Visoko obrazovanje**

Do školske 2004/05.god. visoko obrazovanje je obuhvatalo više škole, fakultete i umjetničke akademije. Visoko obrazovanje se stiče (za studente koji su upisali prije školske 2004/05.) na fakultetima i umjetničkim akademijama na kojima nastava traje najmanje četiri godine, a više obrazovanje se stiče završavanjem prvog stepena visokoškolske nastave ili više škole na kojima nastava traje dvije godine (dvogodišnje studije).

Akademske 2003/04.god. na većini fakulteta prva godina studija je organizovana u skladu sa principima Bolonjske deklaracije, a od akademske 2004/05. god. ovaj način studiranja primjenjuje se na svim fakultetima. Primjenom ove deklaracije ne postoje više škole, već samo visoke (primijenjene) na kojima nastava traje tri godine. Osnovne akademske studije traju najmanje tri godine.

**Adult education**

Schools for adults' education provide possibility to persons over 15 years (adults) who are not regularly attending a school, to acquire elementary education and training.

Adults can complete primary school by either regular attending of school or taking exams. Primary education for adults is organized by grade from I to IX and lasts for four years. Organizationally, these are recognized as separate schools.

Adults acquire a secondary education as part-time students in secondary schools.

**Primary music and ballet schools**

In primary music and ballet schools, pupils are being prepared for further schooling in secondary music and ballet schools. Schooling lasts from two to six years and goes in parallel with regular primary schooling.

Primary music and ballet art school within a secondary art school is shown as primary music or ballet school.

**Higher education**

Until school year 2004/05, higher education included high schools, faculties and art academies. Higher (tertiary education) – faculties and academies (for students enrolled before the school year 2004/05) is received at faculties and art academies, and is lasting minimum 4 years, while high (post-secondary non-tertiary education) is received upon completion of first degree of higher education or completion of high schools, whereas in both cases the schooling lasts 2 years.

In almost all faculties the first year of studies of academic year 2003/04, was organized in consistency with Bologna Declaration, while as of 2004/05 academic year it has been applied in all faculties. Implementation of this Declaration means that post-secondary non-tertiary so-called high schools do not exist any more but only so-called higher schools (faculties) where education lasts for 3 years. The basic academic studies last for at least 3 years.
