

Quarterly statistics of transport I quarter 2015

Transport of passengers in the first quarter of 2015, compared to the same quarter of the previous year increased to 0.4% for rail, road transport by 4.2%, local road for 18.2%, the carriage of passengers at airports by 10.6 %, scheduled air transport for 6,1%, non scheduled air for 6.2%, while the decrease was recorded in maritime by 12.5%.

The transport of goods in the first quarter of 2015, compared to the same quarter last year increase was recorded in the transport of goods at airports 12.7%, the total turnover of goods in ports by 25,5%, while the decrease registered in the railway for 2.0% and 13.8% for the maritime.

Number of trans-shipment tonnes in the ports in the first quarter of 2015, compared to the same quarter of the previous year increased by 14.8% and in the manipulated tonnes by 20.8%.

Number of minutes in fixed telecommunication in the first quarter of 2015 compared to the same quarter of the previous year decreased by 13.9%, while number of minutes of mobile telecommunication increased by 5.8%.

Number of injury accidents on roads in the first quarter 2015 totaled 946 which is 14.4% less than the same quarter of the last year. Number of casualties¹ in the first quarter 2015 amounted to 334 (of which 327 injuries), which is 5.9% less than the same quarter last year.

Number of registered road motor vehicles and trailers in the first quarter 2015 is 38 294, which is a increase of 2.6% in comparison with the same quarter of previous year. Number of first time registered road motor vehicles and trailers in the first quarter 2015 is 3 303, which is a increase of 10.9% in comparison with the same quarter of previous year.²

Table 1. Quarterly statistics of transport, I quarter 2015

Indicator	I quarter 2014	I quarter 2015
Number of passengers carried by rail, in thousands.	239	240
Number of passengers carried in road transport, in thousands.	1 353	1 410
The number of passengers at airports, in thousands.	154	170
The number of passengers in maritime transport, in thousands.	4.3	3.7
The number of accidents in road traffic	1 105	946
Number of registered road motor vehicles and trailers	37 308	38 294

¹ Casualties are any person killed or injured as a result of an injury accident.

² First time registered vehicles include: new and used imported vehicles, i.e. vehicles for the first time registered.

Table 2. Transport of passengers and goods by type of transport

	2014	2015	Indices

METHODOLOGICAL NOTES

It may happen that the total sum does not match the number of individual data, and that the cumulative data is not always equal to the sum of individual quarterly results due to rounding of numbers.

Source of data

The data of transport are the result of regular quarterly surveys.

Data source for rail transport are reporting units with the carriage of passengers and goods by rail prevailing activity (Section H, field 49); road passenger traffic reporting units with the carriage of passengers in road traffic prevailing activity (Section H, field 49); local road traffic reporting units with the carriage of passengers in local road (urban) traffic prevailing activity (Section H, field 49); traffic at airports reporting units that perform service activities in air traffic (Section H, field 52); air traffic reporting units which operate in air traffic (Section H, field 51); maritime traffic reporting units with the carriage of goods and passengers in maritime transport prevailing activity (Section H, field 50); to report on the arrival and departure of ships reporting units are the Port Authority; reloading the reporting unit which is engaged manipulating freight (shipping in ships and unloading from them) prevailing activity (Section H, field 52); postal and telecommunications traffic reporting unit which is a postal traffic (Section H, area 53) and telecommunications (sector J, division 61) the prevailing activity.

Source data for the number of road traffic accidents is Montenegro police directorate and the number of registered road motor vehicles and trailers Ministry of Interior of Montenegro.

Definitions

Transport is the movement of passengers and goods and from place of loading to place of unloading.

Passenger is every person with ticket or appropriate document with the aim to travel to desired place.

Passenger kilometre presents the transport of one person over the distance of 1 km.

Goods transported are goods transferred based on the contract on transport. The quantity of goods transported is expressed in gross weight, meaning that the quantity of goods covers also the quantity of packaging or packing material (containers).

Tonne-kilometres indicate transport of one-tonne goods over the distance of 1 km.

Airport is certain land or water area (including all buildings, facilities, and equipment) intended for aircraft take-off and landing, as well as for movements of aircrafts on the land area, and open for commercial air transport.

Ports are places for loading/embarkation and unloading/disembarkation passengers and goods at the seashore built particularly for this purpose, while docks are similar places on riverbanks and lakefronts.

Trans-shipped tons of cargo related to the total amount of cargo that passes through the transshipment business entity, where the same load, regardless of the number of manipulations that it has executed, shown only once.

Manipulated tons are a unit of performance that expresses the sum of operations registered by kind that are made (unloading, loading, reloading the direct transfer).

Postal service is a service of receiving, processing, transfer and delivering letter mails in accordance with accepted standards.

Letter is a type of communication in written form on paper or other appropriate data carrier, which must be sent and delivered to the address indicated by the sender on the item or letter cover.

The package is a postal consignment containing goods and items.

Other printed papers are printed publications issued by the publisher of a daily, occasionally or in a given period (newspapers and magazines).

Telecommunication services cover transfer of voice, data, text, and sound, and video material by the transmission equipment based on single technology or combination of several technologies.

Fixed telecommunication is services providing to users the access to public fixed network at the fixed location, and the use of public accessible telephone service at the fixed location.

Mobile telecommunication is services providing to users the access to public mobile network, and the use of mobile telecommunication services.

Traffic accident is an event that occurred on the road or the start on the road, which was attended by at least one vehicle in motion and in which one or more persons injured or killed or died within 30 days of the result of the traffic accident or result damage to property.

Registered road motor vehicle and trailer are all vehicles registered in the Ministry of Interiors, except military vehicles.

For the first time registered vehicles include: new and imported vehicles, i.e.vehicles with the first-time registration in Montenegro.
