

Quarterly statistics of transport *II quarter 2015*

Transport of passengers in the second quarter of 2015, compared to the same quarter of the previous year increased to 14.0% for rail, road transport by 2.1%, local road for 17.2%, non scheduled air for 67.7%, while the decrease was recorded in maritime by 8.4%, the carriage of passengers at airports by 5.1 % and scheduled air transport for 0.7%,

The transport of goods in the second quarter of 2015, compared to the same quarter last year increase was recorded in the in the railway for 46.2%, the total turnover of goods in ports by 48.0% and in transport of goods at airports 6.8%, while the decrease registered in maritime by 7.4%.

Number of trans-shipment tonnes in the ports in the second quarter of 2015, compared to the same quarter of the previous year increased by 36.1% and in the manipulated tonnes by 68.6%.

Number of minutes in fixed telecommunication in the second quarter of 2015 compared to the same quarter of the previous year decreased by 18.2%, and in number of minutes of mobile telecommunication decreased by 0.4%.

Number of injury accidents on roads in the second quarter 2015 totaled 1 138 which is 17.8% less than the same quarter of the last year. Number of casualties¹ in the second quarter 2015 amounted to 532 (of which 519 injuries), which is 11.1% more than the same quarter last year.

Number of registered road motor vehicles and trailers in the second quarter 2015 is 53 743, which is a increase of 0.3% in comparison with the same quarter of previous year. Number of first time registered road motor vehicles and trailers in the second quarter 2015 is 4 563, which is a increase of 3.0% in comparison with the same quater of previous year.²

Table 1. Quarterly statistics of transport, II quarter 2015

Indicator	II quater 2014	II quater 2015
Number of passengers carried by rail, in thousands.	278	317
Number of passengers carried in road transport, in thousands.	1 621	1 655
The number of passengers at airports, in thousands.	426	405
The number of passengers in maritime transport, in thousands.	8.1	7.4
The number of accidents in road traffic	1 385	1 138
Number of registered road motor vehicles and trailers	53 558	53 743

¹ Casualties are any person killed or injured as a result of an injury accident.

² First time registered vehicles include: new and used imported vehicles, i.e. vehicles for the first time registered.

METHODOLOGICAL NOTES

It may happen that the total sum does not match the number of individual data, and that the cumulative data is not always equal to the sum of individual quarterly results due to rounding of numbers.

Source of data

The data of transport are the result of regular quarterly surveys.

Data source for rail transport are reporting units with the carriage of passengers and goods by rail prevailing activity (Section H, field 49); road passenger traffic reporting units with the carriage of passengers in road traffic prevailing activity (Section H, field 49); local road traffic reporting units with the carriage of passengers in local road (urban) traffic prevailing activity (Section H, field 49); traffic at airports reporting units that perform service activities in air traffic (Section H, field 52); air traffic reporting units which operate in air traffic (Section H, field 51); maritime traffic reporting units with the carriage of goods and passengers in maritime transport prevailing activity (Section H, field 50); to report on the arrival and departure of ships reporting units are the Port Authority; reloading the reporting unit which is engaged manipulating freight (shipping in ships and unloading from them) prevailing activity (Section H, field 52); postal and telecommunications traffic reporting unit which is a postal traffic (Section H, area 53) and telecommunications (sector J, division 61) the prevailing activity.

Source data for the number of road traffic accidents is Montenegro police directorate and the number of registered road motor vehicles and trailers Ministry of Interior of Montenegro.

Definitions

Transport is the movement of passengers and goods and from place of loading to place of unloading.

Passenger is every person with ticket or appropriate document with the aim to travel to desired place.

Passenger kilometre presents the transport of one person over the distance of 1 km.

Goods transported are goods transferred based on the contract on transport. The quantity of goods transported is expressed in gross weight, meaning that the quantity of goods covers also the quantity of packaging or packing material (containers).

Tonne-kilometres indicate transport of one-tonne goods over the distance of 1 km.

Airport is certain land or water area (including all buildings, facilities, and equipment) intended for aircraft take-off and landing, as well as for movements of aircrafts on the land area, and open for commercial air transport.

Ports are places for loading/embarkation and unloading/disembarkation passengers and goods at the seashore built particularly for this purpose, while docks are similar places on riverbanks and lakefronts.

Trans-shipped tons of cargo related to the total amount of cargo that passes through the transshipment business entity, where the same load, regardless of the number of manipulations that it has executed, shown only once.

Manipulated tons are a unit of performance that expresses the sum of operations registered by kind that are made (unloading, loading, reloading the direct transfer).

Postal service is a service of receiving, processing, transfer and delivering letter mails in accordance with accepted standards.

Letter is a type of communication in written form on paper or other appropriate data carrier, which must be sent and delivered to the address indicated by the sender on the item or letter cover.

The package is a postal consignment containing goods and items.

Other printed papers are printed publications issued by the publisher of a daily, occasionally or in a given period (newspapers and magazines).

Telecommunication services cover transfer of voice, data, text, and sound, and video material by the transmission equipment based on single technology or combination of several technologies.

Fixed telecommunication is services providing to users the access to public fixed network at the fixed location, and the use of public accessible telephone service at the fixed location.

Mobile telecommunication is services providing to users the access to public mobile network, and the use of mobile telecommunication services.

Traffic accident is an event that occurred on the road or the start on the road, which was attended by at least one vehicle in motion and in which one or more persons injured or killed or died within 30 days of the result of the traffic accident or result damage to property.

Registered road motor vehicle and trailer are all vehicles registered in the Ministry of Interiors, except military vehicles.

For the first time registered vehicles include: new and imported vehicles, i.e. vehicles with the first-time registration in Montenegro.
